
Pick your industry. We'll show you exactly what we can [automate with AI](#) — every workflow, every agent, every price. [Thirteen industries + a voice desk in 14 languages](#). Pick one below.

SECTION II · VERTICALS

02

— [CLICK THROUGH THE CATALOGUE](#)

Fourteen practice areas, [one-hundred-fifty-plus](#) ready agents.

We don't build horizontal AI. Every agent below — including an always-on [voice desk fluent in 14 languages](#) and a new [Public safety](#) practice — is built on real workflows, ships with reference integrations, and is priced per completed outcome.

Voice agents

— VERTICAL 01 · HEALTHCARE

Free up **clinicians** from paperwork that shouldn't need a human.

TARGET SLA

99.4%

ON-TIME / 90D

For hospital groups, primary care, specialty clinics, ambulatory surgery, dental, telehealth and payers. Agents are HIPAA-aligned, audit-logged and clinician-reviewable, and slot in behind Epic, Cerner, Best Practice, Medical-Director, Athena or your existing EMR. We focus on the highest-dollar pain: ambient scribe, prior-auth, denials, and the revenue-cycle workflows that eat a practice's week.

— DON'T SEE YOUR INDUSTRY?

We might build for you. **Ask.**

We turn down more vertical requests than we accept — we won't build in a space we don't already know. But we're always open to a conversation about a new vertical.

Agents that **finish.**

Autopilot Labs is an AI workflow studio with hubs in Melbourne, Dubai and Riyadh. We build vertical agents across fourteen practice areas — thirteen industries plus an always-on voice desk in 14 languages (Arabic included) — and bill per completed outcome. Not per seat, not per token.
