

Agents that finish the job.

Autopilot Labs builds vertical AI agents that do your team's most repetitive work — patient intake, invoice reconciliation, lease abstraction, case-file drafting, inbound phone calls in 14 languages, Arabic included. Hubs in Melbourne, Dubai and Riyadh, deployed globally. You pay when the AI ships the outcome. Not per seat. Not per token.

WHAT WE DO · § 01

Thirteen industries. One-hundred-fifty+ ready agents.

We don't build horizontal AI. Each practice area ships a pre-priced catalogue of agents, a target SLA, and a shortlist of workflows we're ready to audit, build and run — plus an always-on voice desk in 14 languages (Arabic included) that slots into Aircall, Twilio, RingCentral, or your existing phone stack. Melbourne · Dubai · Riyadh · global.

01 · HEALTHCARE  Healthcare Intake, prior-auth, ICD/CPT coding, refill voice, denial appeals. 9 AGENTS OPEN →	02 · LEGAL  Legal Discovery, leases, client intake voice, depo summaries. 9 AGENTS OPEN →
03 · FINANCE  Finance Reconciliation, AR voice, close drafter, KYC voice. 9 AGENTS OPEN →	04 · REAL ESTATE  Real estate Listings, enquiry voice, inspection booking, settlements. 9 AGENTS OPEN →
05 · E-COMMERCE  E-commerce Product discovery, order management, customer support. 9 AGENTS OPEN →	06 · HR & HIRING  HR & Hiring Recruitment, onboarding, employee support. 9 AGENTS OPEN →

Voice · 14 languages

AI phone desk that crosses every industry. Inbound, outbound, multilingual (Arabic · Mandarin · Hindi · Spanish · +10 more). < 2 rings to answer, writes the CRM note for you.

FLAGSHIP · 16 SKUS · < 2 RINGS

OPEN →

FLAGSHIP · CROSS-CUTTING · § 02

A voice desk. In 14 languages. That never misses a ring.

One AI phone desk that plugs into Aircall · Twilio · RingCentral · Zoom Phone · GoTo. Answers inbound in under two rings, runs outbound against your list, warm-transfers on edge cases, writes the CRM note and the action items. Every call transcribed, scored and replayable on the ops console.

Fluent, not translated: real-time conversation in the caller's language, regional accents supported, tone-matched to your brand voice.

2-week audit → live in your phone stack in week 3.

Three things every other AI agency gets **wrong**.

Most AI agencies sell a chatbot and a subscription. We sell finished work, measured in units your CFO already tracks.

— 01 · WORKFLOW-FIRST

14_{days}

FREE AUDIT · NO OBLIGATION

We audit **before** we build.

Every engagement starts with a two-week workflow audit. We map the manual path end-to-end, find the bottlenecks, and price only the jobs we can confidently automate. No audit, no build.

VERSUS

Most agencies open with a 90-slide "AI transformation roadmap" and a six-figure retainer. Ours opens with a pen, a whiteboard, and your own people.

— 02 · OUTCOME PRICING

A\$0.40_{from} · per outcome

TIERED BY COMPLEXITY

You pay **per completed task**.

Tokens are our cost, not yours. Seats are a rounding error. You pay a rate per finished unit — a triaged claim, a tagged lease, a resolved ticket, an answered call — with an SLA in the contract. Miss the SLA, you don't pay.

VERSUS

SaaS vendors charge per seat whether the work happens or not. We only get paid when the outcome does.

14 practice areas

NOTHING ELSE

Fourteen areas. [Nothing else.](#)

We don't do "AI for everything." Thirteen industries plus an always-on voice desk in 14 languages — and we turn down work outside them. Depth beats breadth, every single quarter.

VERSUS

Horizontal AI consultancies relearn your domain on every project. We already know what a SOAP note is, what a FNOL packet needs, what a chain-of-custody log requires, and why your LegalHold tag matters.

WHAT YOU SEE · § 04

Every outcome, [audited.](#) Every SLA, [live.](#)

One console, live, for every seat on your team. No screenshots, no PDFs, no "ask your CSM." A read-only seat lands in your inbox within 24 hours of signing the audit letter.

+ LIVE STREAM

Every outcome, timestamped and billed in real time.

+ SLA CREDIT-BACK

Miss the SLA, the outcome is free. Automatic on the invoice.

+ FULL AUDIT LOG

Every agent action, every document, every call — replayable.

Issued within 24 hours. No sales call.

— HOW WE WORK · § 05

Four principles on every contract.

The rules we won't negotiate — in writing, on every statement of work we sign. Audit-first, outcomes-only, vertical-deep, and always with a named human accountable for the agent that runs the job.

— 01 · AUDIT-FIRST Two weeks free. Every engagement starts with a 10-working-day workflow audit — observing, measuring, mapping. We only propose what we can ship.	— 02 · NO AUDIT, NO BUILD We'll say no. If we can't confidently automate a workflow to SLA, we decline the work and hand you the diagnostic. No retainers for vapour.
— 03 · PAID ON OUTCOMES Miss SLA, free. Every outcome ships against a contract SLA. If the agent misses, the outcome is credited back automatically on the invoice.	— 04 · VERTICAL-ONLY Fourteen areas. Full stop. Thirteen industries plus a voice desk in 14 languages — and we turn down work outside them. You hire people who already speak the domain.

— START WITH AN AUDIT, NOT A PITCH

Two weeks. One workflow. No obligation.

We spend 10 working days inside your team — observing, measuring, mapping. If we find a workflow we can ship agents for, we price it. If we don't, you walk away with a full diagnostic report, on us.

Agents that finish.

Autopilot Labs is an AI workflow studio with hubs in Melbourne, Dubai and Riyadh. We build vertical agents across fourteen practice areas — thirteen industries plus an always-on voice desk in 14 languages (Arabic included) — and bill per completed outcome. Not per seat. Not per token.
