

Tell us what repetitive job is eating your team's week. We'll spend 10 working days figuring out what we can [automate with AI](#), and hand you a 20-page diagnostic. Yours to keep whether we quote or not. About a third of audits end in a polite no — that's fine too.

Send a Loom or a 2-paragraph write-up of the workflow. If we can quote from it alone, we will — no call required.

— WHILE YOU DECIDE

Go read the
fine print.

The pricing, the process, the thirteen verticals, the clauses we've signed our name to. Everything we'd hand you in the first meeting is already on the site.

Agents that

finish.

Autopilot Labs is an AI workflow studio with hubs in Melbourne, Dubai and Riyadh. We build vertical agents across fourteen practice areas — thirteen industries plus an always-on voice desk in 14 languages (Arabic included) — and bill per completed outcome. Not per seat, not per token.
